

EuroBLECH2018 Exhibition report

This exhibition is largest scale of the world!

The EuroBLECH 2018, the 25th international sheet metal working technology exhibition is held in Hanover, Germany from Oct 23st to 26th. We displayed total weight exceeding 300kg tooling at there.

Although it is gentle Hanover city usually, this time just a large bustling!

Building visible in the background is the Hanover Central Station

The appeal to the customers arranged the latest punch press tool!

This time becomes seventh time of exhibitors, we have many people overseas dealers to meet every time.

Our salespersons will match your description of the punch press tool to many countries customer.

We hope to meet you next exhibition.

We service with a smile
