

SUPER DRY PUNCH (SDP)

*CONIC No.1
wear resistance tool*

***Incredible durability and defeated the common sense
“Stainless is hard to process” .***

EXPERIMENTATION

Result 1 *Strong wear resistance*

In comparative tests with other companies' coated punches, the Super Dry Punch demonstrated approximately four times greater wear and chipping resistance.

Result 2 *Never peel off*

SDP is not only just surface treatment, but also penetrated inside of punch material. Therefore, it will never peel off and still works fine even after re-grinding.

	Other suppliers	CONIC
Treatment	TiCN	SDP
Sheet material	SUS304 t=2.0mm	
Oil	(None) Non-lubrication	
Number of hits	20,000 hits	82,000 hits

01 Distinguished durability

Shows high performance for hard processed material.

02 Reduced the tool cost

SDP can be durable more than 3 times longer as compared with conventional tool.

03 Non-lubrication

Suitable for clean processing without any lubrication oil.

Total performance	Punch Type	Appropriate Material			
		Stainless	Mild steel	Aluminum	Galvanized
