

Dear all,

The hot days haven't let up this summer. Are you well? There are still hot days like summer during the daytime, the sun has set off much earlier.

In Japan, you can hear cool sounds such as the bell crickets in the fall instead of cicada's voice.

In autumn, lots of delicious food line up at the storefront such as chestnut, pear, apple, sweet potato etc.

I want to forget the heat of summer soon and slowly enjoy it. ©

"KEIROU NO HI" (Respect for the Aged Day)

Third Monday of September is a unique Japanese national holiday which honors and shows respect to the aged.

This national holiday was established in 1966.

This is also the day for the Japanese people, with the highest life-expectancy rate in the world, to think about social welfare issues that concern senior citizens.

People usually visit their parents or grandparents on that day if they are not living together.

Kindergarten children often visit special homes for the aged to please them.

There are also many events held by local governments

where a respect-for-the-aged associations entertain people and give them souvenirs.

WEB SYSTEM FOR DEALERS

****We are currently starting advanced operation in Vietnam. For other regions, we plan to support it sequentially.**

Even if the dealer is not familiar with tools, the tool sales can be started easily by using the mobile application by the end user's field staff.

In addition, by using a dedicated WEB system, it is possible to carry out business operations such as quotation reply and order management from a WEB browser anytime, anywhere.

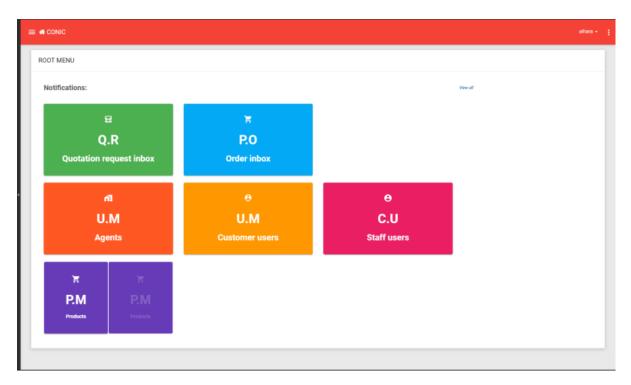

Of course, even if you request a quote from an end user via a conventional telephone or email, you can create a quote on your web browser.

The staff registration to log in to the web browser and perform business can be added and deleted freely at your company, so it is ideal for shared work.

For details on the WEB system or for any questions, please contact our staff (Tool Sales Desk).
